Hi Fred

Just to say THANK YOU.

I bought over 100,000 shares of EQUINE at 1.89 and is still holding on to it. Todays close at RM is simply fantastic. I follow strictly to your PINEWS recommendations.

Made money on EDEN too. Exit last week at 1.33. Reenter again today over 1.41. Also bought SUNRISE and GCORP.

Many thanks again.

Dear Fred Tam,

Firstly, I would like to THANK YOU for some GREAT recommendations that I have profited from since becoming a member. Made some good profits on MPHB-wb, ASIAEP-wa by following your entry and exit points. Genting-ca too. Unfortunately I went into Tenaga-cb and Tenaga-cc too early and caught, missed the uptrend. Congratulations on great picks like IJM-wb and YTL-wb. Thanks again for your advice.

P/S : EXCELLENT BOOK – "Maximising Stock Market Profit". Regretted not knowing about it earlier. A MUST READ even for punters.

Best Regards
Danny and Alison.

Dear Fred,

I have been a subscriber of PI daily newsletter for the past three months and find the contents very informative. I will continue to subscribe to the newsletter and will definitely recommend to fellow friends.

I will be migrating to perth Australia in April 2007. I would like to seek your advise as to whether there is a similar newsletter on the Australian equity market which I can subscribe to.

Best Regards
